“ *This is the tribute page for my departed feline friend, Brangwayn. She was my best friend. On November 16, 2014, a sudden and unexpected medical episode caused her to have breathing issues, which led to her heart stopping. I have been missing her very much. Over time, I plan to develop this page into a complete tribute to her. You can all help by posting your own memories, photos, videos, or condolences here.*
