

Diego Santiago-Hoge

September 14, 2019

Our beloved tortoise, Diego, passed away quietly at home September 14, 2019.

We adopted Diego from the New York Turtle and Tortoise Society in 1987. He had a big personality for such a small creature. He bonded to both of us early on and would follow us around our apartment. He loved to have his head and neck scratched. When strangers came into our home, he would retreat into his shell until they left. He loved to crawl into small spaces and hide from us.

Later on in our house, Diego had a room all to himself, with large windows that let in loads of sunlight which he enjoyed.

We were with him when he passed, he was resting in his favorite spot. Diego lived with us for 32 years.
