“ *Perhaps one of the luckiest street cats there ever was, Leana lived a long & luxurious life. Surrounded with other animals she loved dearly & a few humans she deemed tolerable, she quietly graced us with her presence every now & then. She was such a pretty kitty, our lovely Leana “que linda” will always hold a special place in our hearts. I am forever grateful that she was under the care of my mom, a truly dedicated & patient cat-mother, who searched high & low for all their favorite foods, provided all the cardboard boxes a girl could dream of, and never gave up on trying to keep her looking impeccable, even if it meant the occasional hook/scratch or two. We will miss you, pretty face girl!*
