“ *Loba, what did we not do with you? Wherever we went, you HAD to be there even in Sevilla Spain with your little flamenco dress walking the majestic plazas. Your lovely personality made it all so easy to take you every where. Even flight attendants reached out to carry you on many occasions. My sweet baby, Grandmaw misses you so much. Your constant watchful attention following Grandmaw all around the house then walking to my side of the bed. Oh my baby, please stay near me. Your mom and dad will forever love you.*

“ *Loba, I have loved many wonderful dogs in my life but what sets you apart is that you never felt like you were a dog. You came to us at 2 months of age and were always a good hearted, mild mannered, little person who simply adored her human companions. How does one heal from the pain and loss when you filled each corner of your home. May your soul be resting baby, until we hopefully meet again.*

“ Our beautiful Brussels Griffon, Loba blessed our lives for over 16 years and 3 months. The joy that she brought to us and her most perfect demeanor made having a little addition to our family the best decision we ever made. Loba may the angels who guide you always keep you near us. Grandma will forever love you and already miss you. Your mom and granddaddy are devastated about you leaving us. Rest peacefully my baby, may our lives meet again when God decides. “Are you a baby?”

My adored Bugeyes was such a travel bug and a Broadway Star she moved within all the circles as the social butterfly she always was. I promise to always keep you're memory alive cause you were truly the leader of our pack. Stand your ground my Love...Hugs and Kisses to you and all your cousins in Heaven with you. Love Titi...
