“ *This is from Mitzy cats sister Swee' Pea. hey sis mommy and daddy told me that you were sick and had to go to a better place. I can't really believe that there is a better place than here at home with them but they told me that it was called kitty cat heaven and you would be all better and having fun playing with your new friends Murray and Fred.. I really do miss eating our breakfast and treats together and running around the house with you but they promised that one day if I'm a good little kitty cat that I will get to see you and play with you again. So I'm being good and I want you know that I miss you and love you and will always remember you. Love and little head kisses Swee' Pea*

“ This is from her daddy. She was my little honey cat for the last 15 years also and our hearts are boken that you had to leave us. You gave us so much joy and so many smiles and chuckles throughout your too very short time with us. Words are hard to come by that explain just what you've meant to us all of these years. I will miss our mornings together, having to wake you up and get you out my favorite chair. You never did seem to mind too much because you would just let me rub your little head and put you in mommies chair. I will also miss how you were our fiesty little bigfoot and would pounce on your ball or catnip toys or anything else that happened across your path when you were little in your little tiger mode. But most of all I will miss holding you and hearing you purr so contently. You seemed to feel so safe and comfy in our arms. We would give anything to hold you just once more and rub that cute little face of yours.

“ This is from her Mommy, She was my little Buddy for 15 years. I loved her with all of my heart. She had a great life with us and brought such joy and happiness to us. She will be missed but always in my heart. She will be a pert of me for the rest of my life. I chose the Yellow Candle for her because she brought such light to my life whenever I saw her cute little face. There will be pictures to come so that we can share them with all of you.

It's been 5 years since we lost our little girl and still miss her every day. We light a candle on her anniversary and pray that she is happy in Kitty heaven. She rests in our living room surrounded by pictures of her and Swee' Pea her sister. Luckily Swee' Pea is still with us and has another sister, Polly. No one will ever take the place of our Mitzy Girl. In our hearts always. 🐱🐾❤️
