“ *Penelope and her brother Clarence started out as my first bunny fosters. After just a few short months I was told that they had potential adopters. I couldn't bare giving them up, so I adopted them in 2008. This was my first experience with bunnies and I loved them so much! I was blessed to have them both in my life. I will miss my girl, but I know that she is running free with her brother over the Rainbow Bridge!*
