“ *Jenn - I do believe it was Precious and Indigo that I had the "pleasure" of attempting to give meds to when you went away many years ago....I hope she has forgiven me since that time! I think this page is wonderful - and a true tribute to a special four-legged family member.*

Bethany Ganley - February 23, 2011 at 10:37 AM

“ *Precious and her sister, Indigo, were only a few days old when I brought them home in September of 1996. They had been abandoned and left without their kitty mommy. For the first few weeks my girls were bottle fed, held close, and even came to work with me so I could care for them throughout the day. I have spent 15+ years loving and spoiling my girls. Precious and I had an extra-special bond. She had quite the personality! To say I will miss her is an understatement. I am going to work on her memorial page over the next few days by adding pictures and stories and I would very much like to have those she knew and loved to share also. Thank you for remembering my special girl with me. xo, j*
