“ *My loyal princess, I've had you since you were 2 month old. You would follow me everywhere and when you couldn't find me and someone asked you Princess where is she, you would search for me until you found me. I will miss you so much but now I know you are at a better place with Leo, Sasha and Lucy, playing around with your favorite pal. Leo would be the only other pet you would tolerate and play with. I love you and one day we will be back together.*
