“ Socks was my most handsome boy for 18 years. My friends and family liked to call him a "3 petter" meaning, you got to pet him on the head 3 times then you better back off or you would get a swat. To me he was a lover and became more loving as he aged. Socks and the rest of his "feline" siblings travelled to live with me to London and back. He was never sick a day in his life until kidney disease found him in his 17th year. We fought a great fight and with a change in diet and twice weekly sub-Q fluids he enjoyed another year and a half of good health. I miss him so much and I look for him in his favorite sleeping spot only to see it empty. But I must celebrate his long life. 18 years is a miracle and for that I will always be grateful.

Special thank you to Dr, June Hacker and staff at Fort Lee Oradell, especially his girlfriend and fav vet tech, Bobbjean. Dr. Hacker and Bobbjean were kind enough to come in on their day off to be with me when I said goodbye.

I will love you forever my most handsome little Socks!
